

Product description

The Exepd two-hand control box of type A21-E1-02609 is designed in such a way that the required minimum distance between the two operating switches is complied with confined space conditions for two hand operation.

In addition to the two operating switches, the control unit is also equipped with an emergency push button. This on-site control unit is certified for potentially explosive areas classified as zone 1/2 und zone 21/22. Being a supplier specialized in customer-specific solutions we are able to deliver the described two-hand Control box within 8 working days.

Other versions in aluminium or stainless steel are also available.
